- Designed to improve use by disabled people: Braille & Buzzer
- Requirement: off-line wall reader control unit

Secure your property with card readers at perimeter doors, elevators, parking areas, pools, health facilities, etc.

Off-line card readers allow only authorized card holders to gain access, and the audit trail retains the last 500 openings. Card Readers are programmable, just like any Onity lock. Perfect for interior or exterior use, readers can be equipped optionally with a heater for temperatures below 0 °C (32° F).

There are also special versions for elevators which can optionally incorporate an area control board that allows filtering the access to eight different areas from one single reader.

Off-line connection

Compatible with Onity HT24w and HT22i electronic locking systems.
